

Easy-to-Use Citation Tool

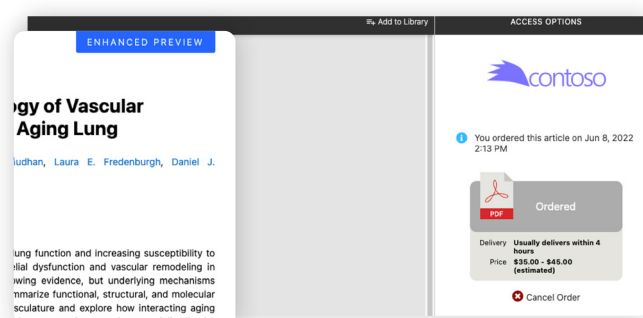

SmartCite redefines citation management. Work on research documents individually or collaborate as a team within [Word or Google Docs](#). Simply browse for desired references from a personal or shared library and insert them where needed. Choose from over 10,000 possible styles or create a custom style for a perfectly formatted bibliography.

Collaboration Across Your Organization [video](#)

In addition to individual library management, ReadCube has unlimited shared library spaces to enable the easy sharing of references, PDFs, and annotations between you and your colleagues.

On-Demand Full Text Access [video](#)

Get on-demand access to virtually any scholarly article with integrated document delivery and subscription management. Ensure an article is right for you with enhanced article previews featuring the abstract, supplemental material, and figures. You can even search inside the PDF prior to purchase.

Getting Started

Begin your ReadCube journey with our [Getting Started](#) guide. For additional onboarding training and support, visit our [Training Center](#). To easily install our apps, browser extension, and SmartCite, visit our [Download Center](#). For more in-depth articles and FAQs, visit our [Knowledge Base](#).
